**17** PARTNERSHIPS  
FOR THE GOALS

## **Strengthen the means of implementation and revitalize the global partnership for sustainable development**

The 2030 Agenda for Sustainable Development is universal and calls for action by all countries – developed and developing – to ensure no one is left behind. It requires partnerships between governments, the private sector, and civil society.

The Sustainable Development Goals can only be realized with a strong commitment to global partnership and cooperation.

The total external debt of low- and middle-income countries reached \$9 trillion in 2021, recording a 5.6 per cent increase from 2020.

In 2022, global exports increased sharply by 12.3 per cent, and global trade reached a record \$32 trillion.

In 2022, net ODA flows by member countries of the Development Assistance Committee (DAC) reached \$206 billion.

To be successful, everyone will need to mobilize both existing and additional resources, and developed countries will need to fulfill their official development assistance commitments.
